PACIFIC COAST CYPRESS

ALASKAN YELLOW CEDAR

Pacific Coast Cypress, a member of the "Cupressaceae" family, grows in the Coast Mountains along Canada's Pacific Coast. It's natural decay and termite resistant properties, along with the milling and drying process (15 to 18%), make it an ideal product for decking.

Marlite PANELING

All MARLITE PLANK & PANEL PRODUCTS are manufactured on Wood Fiber Substrates that utilize a high percentage of post-manufacturing recycled wood by-products. The finish begins with a base coat, then a baked on paint coat, print coats (where necessary) and, finally, a Melamine top coat for durability in high traffic areas.

----- Not recommended for high moisture areas -----

- PLANK SYSTEMS - 6 Pieces Per Carton- 64 sq. ft/ctn - Concealed Clips for Nailing
 16"x8"x1/4" - Construction Adhesive (60 sq. ft/gal) - Tongue & Grooved Edges

MASONITE

HORIZONTAL SIDING-16' - Hardboard siding made with wood fiber has no knots, is a full 16' and is available smooth, textured, primed and prefinished, in many cases. It is 50% denser than wood, providing insulation qualities as well as enough stability to eliminate the need for sheathing.

Limited Warranties: - 5 year factory prime coat - 25 years substrate - 15 year factory finish
